

A helping hand for StarJam

Through The Iron Bridge Foundation (our own charitable trust), we get to support some amazing local causes and recently we were able to help support the work of StarJam.

StarJam is an amazing organisation that helps young New Zealanders with disabilities unleash their potential through music, dance and performance art.

We're thrilled that our donation went towards supporting the work of StarJam and their valuable jamming workshops, which are held all over the country.

The photo shows a group of 'Jammers' who are a part of StarJam's Auckland Workshop, West Dazzling Dance, clearly having a wonderful experience.

It's awesome to see young New Zealanders like these so full of passion and having a blast through performance.

For more information about StarJam and their work [visit their website](#).
